

Doug Miller Retires from KPUD

After 30 years of employment, Doug Miller has retired, effective October 31.

Doug was hired September 12, 1977. He has served in numerous capacities at Klickitat PUD (KPUD), with his last assignment being water-wastewater project manager.

Doug has been a leader in KPUD's eight water and five wastewater system improvement projects.

Doug's knowledge of these systems has been invaluable. He has been instrumental in overseeing construction of the new Wishram wastewater system, Klickitat water and wastewater systems, and the Lyle wastewater system.

Doug has also served as a leader of department personnel and has

Doug Miller, third from left, with his three water-wastewater system operators, from left, Eric Shea, Howard Sinor and Tim McMurrin.

represented KPUD well across the communities we serve in our water and wastewater department.

KPUD employees, retirees and

friends attended a luncheon in Doug's honor October 18 to wish him the best for his retirement. Congratulations, Doug! ■

Stacy Strode Fills GIS Position

Klickitat PUD's newest employee, Stacy Strode, started working September 17 for the engineering department as the geographical information systems specialist.

Stacy's most recent employer was Windtricity in Goldendale. She graduated from Goldendale High School in 1997 and attended ITT Technical Institute, where she received her associate's degree and started her bachelor's degree studies.

She moved around the Northwest for several years before settling back in Klickitat County. Stacy says she is glad to be back in Goldendale and see her children growing up in the same small-town environment she did. Her children are Matthew, 7, and Hannah, 5.

Stacy and Robert Detweiler are planning a June wedding.

Stacy Strode

In her free time, Stacy enjoys riding horses, camping with the family and coaching soccer, baseball and rodeo.

Join us in welcoming Stacy to the PUD! ■
