## KPUD's 2013 Fuel Mix Chart

## Electricity Comes from Multiple Sources

Klickitat PUD's diverse mix of energy sources comes mainly from the Bonneville Power Administration's resource portfolio, along with output from KPUD's McNary Hydro Fishway project.

The Washington Department of Community, Trade and Economic Development conducts an annual survey of all electric utilities operating within the state to determine the source of the electric energy sold to the utilities' retail customers.

CTED uses the information to develop a statewide database and subsequently provides each electric utility with a fuel mix report listing the fuel types used in providing their electric service. ■

## Operation Warm Heart

Operation Warm Heart is an emergency energy assistance program funded by gifts from KPUD customers.

During the past decade, customers have given more than \$85,000 to help hundreds of families in financial need, often because of a health emergency or change in employment. Generally, they are in danger of having their power disconnected or are unable to pay their deposit.

### Who gets help?

All of the funds raised by Operation Warm Heart stay in Klickitat County to help local families in crisis.

### How can I contribute?

You can be part of Operation Warm Heart with a tax-deductible contribution of any amount.

There are three easy ways to give:

1. Have a small amount added to your monthly KPUD bill. Most people give just \$1 or \$2 a month.
2. Make a contribution of any amount. All gifts are welcome.
3. Place your bill on Operation Round Up, which rounds up utility bills to the nearest dollar and places the difference into the Operation Warm Heart fund to help needy families.

No matter which option you choose, your gift is tax deductible and a great way to show you care.

If you would like to participate, call KPUD at (800) 548-8357 or (509) 773-5891.

Thank you for supporting this program. KPUD appreciates every donation from big to small.
