

Supplemental Information & Programs

**These programs may be available to help offset system installation cost
Please contact the appropriate agencies for more information**

Washington State Consumer Protection Legislation
<p>New regulations mandate transparency for residential solar installers, necessitating updated licensing requirements, contract language with specific provisions, and comprehensive notices and disclosures for potential customers. For further details, please refer to the legislation document provided below.</p> <p>Reference materials: 2024 Washington Substitute House Bill 2156</p>
Federal Tax Credits UPDATED 8/2022
<p>Some forms of electric generation systems can qualify for a tax credit of: Photovoltaic, Wind Turbine, and Fuel Cell. Consult with your tax professional for actual detail and processes.</p> <ul style="list-style-type: none">• 30% for systems placed in service on or before 12/31/2032• 26% for systems placed in service after 12/31/2032 and before 01/01/2033• 22% for systems placed in service after 12/31/2033 and before 01/01/2034• Expires: December 31, 2034 <p>Details: In most cases, existing home and new construction qualify; Both principle and secondary homes qualify. Rentals DO NOT qualify.</p> <p>Some restrictions may apply. Contact your generating system installer or tax professional to learn more.</p> <p>Reference materials: Bipartisan Budget Act of 2018: www.energystar.gov Inflation Reduction Act of 2022</p>
Washington State Renewable Energy System Incentive Program
<p>UPDATE: Due to the high level of interest in the Washington State Renewable Incentive Program for individual generating systems and the funding limitations prescribed in the governing legislation this program is currently closed for individual net metering projects.</p> <p>These programs are Washington State programs which they fund through tax revenue and provides incentive based on participating customers annual energy production. These programs are managed by Washington State University extension energy program for utilities that choose to participate as a pass-through for the program. To participate applicants must be pre-approved by the utility and WSU before systems can be put in place.</p> <p>or more information contact WSU Energy 1-360-956-2200 or visit www.energy.wsu.edu</p>
Disclaimer
<p>The above are programs are managed by other entities and are not KPUD developed programs. Please contact KPUD at (509) 773-7622 with any questions.</p>

All plans do have participation limits and are subject to being closed at any time without notice
