Results in brief

In those selected areas, District operations complied, in all material respects, with applicable state laws, regulations, and its own policies, and provided adequate controls over the safeguarding of public resources.

In keeping with general auditing practices, we do not examine every transaction, activity, policy, internal control, or area. As a result, no information is provided on the areas that were not examined.

About the audit

This report contains the results of our independent accountability audit of Public Utility District No. 1 of Klickitat County from January 1, 2019 through December 31, 2019.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

This audit was conducted under the authority of RCW 43.09.260, which requires the Office of the State Auditor to examine the financial affairs of all local governments. Our audit involved obtaining evidence about the District's use of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters. The procedures performed were based on our assessment of risks in the areas we examined.

Based on our risk assessment for the year ended December 31, 2019, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. We examined the following areas during this audit period:

- Payroll – gross wages, overtime, leave balances and accruals, leave cash outs and electronic funds transfers
- Accounts payable – general disbursements and electronic funds transfers
- Cash receipting at Goldendale Office – timeliness and completeness of deposits, voids and adjustments
- Self-insurance for unemployment
- Procurement – public works projects
- Compliance with public works projects – prevailing wage, change orders, retainage requirements

- Tracking and monitoring of theft-sensitive assets, such as computers, tools, and equipment
