

KPUD Offers Various Payment Options

Klickitat PUD offers its customers a variety of options for paying monthly bills. In addition to the usual method of check or cash, KPUD accepts drafts from bank accounts and debit or credit cards.

Customers also have the option of paying online or calling and paying over the phone with their debit or credit card. The check-by-phone payment method is not accepted.

Drafts

KPUD can deduct monthly bill payments directly from a customer's checking or savings account, or from their debit or credit card. This service relieves customers of worrying about due dates, writing checks or finding a stamp. Instead, a draft automatically takes care of paying the bill.

In choosing this option, customers receive a monthly statement showing the amount of the draft that will come out on the payment due date. If you use this option with your credit or debit card, it is important to inform KPUD if the expiration date changes on your card.

Online

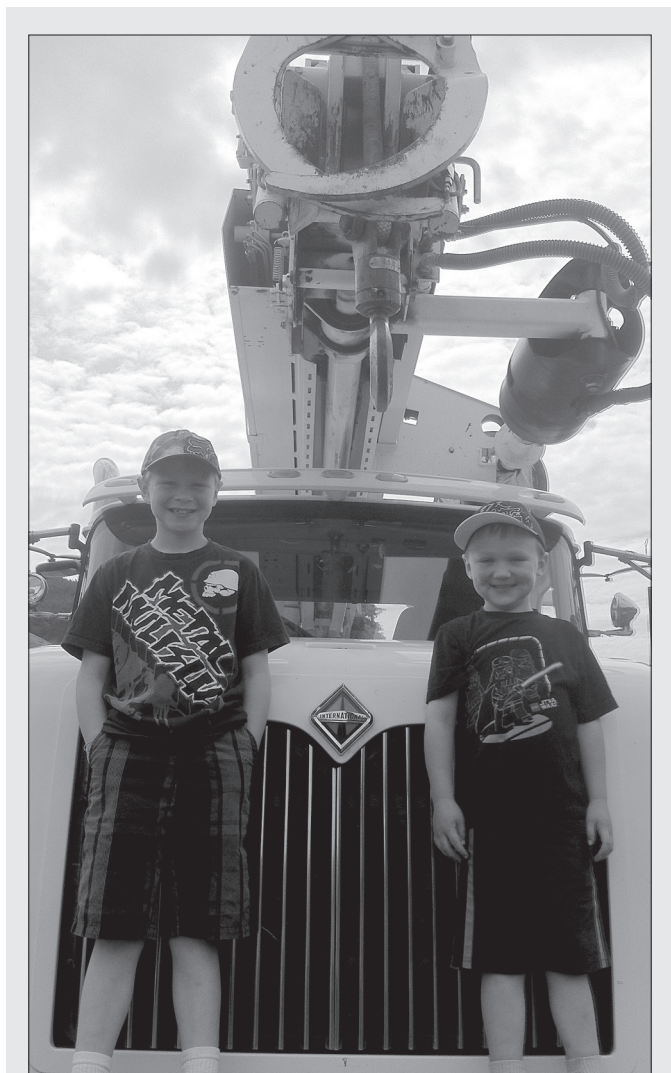

Payments can be made online at www.klickitatpud.com. Choose "Pay Bill/Meter Read" from the left-hand column.

To log in, you will need your account number. Your pin number may be the last four digits of your account number and the first letter of your last name. If that doesn't work, register as a first-time user with your account number and your meter number or current phone number.

The online program accepts credit or debit cards. You also can view your last 12 statements online, graphs of your kilowatt-hour use and recaps of your payments, and request minor changes to your account.

If you are a rural customer and read your own meter, click on "Your Account Maintenance," then "Submit Reading." Enter your read in the box provided and be sure to complete the entire process of submitting your read.

If you have any questions or concerns, KPUD is here to help. Call Customer Service for more information at (509) 773-5891 or (800) 548-8357. ■
