Bringing Power to the People

By Lori Froehlich

Klickitat PUD prides itself on providing the utmost in customer care and service to the people of Klickitat County, whether that is help on your bill, fixing an outage, answering a question or installing power to your property where you have worked so hard to make your hopes and dreams a reality.

When a customer goes out of his or her way to thank us for a job well done, we feel like it should be shared with everyone.

KPUD customer Andy Jacobson recently sent in a big thank you to the White Salmon line crew for their hard work at his job site.

“Justen, TJ, Jeff and Bernie showed up with their rigs and talent bright and early,” Andy says. “They snaked a power line down the trench from the barn to the temporary meter at the job site and we now have power there! Their team did a great job.”

Stanly looks on from an uphill vantage point while the White Salmon crew is hard at work.

Klickitat PUD is proud of its employees and congratulates them on constantly striving to provide customers with the quality of service they deserve. ■
