

NOT YOUR TYPICAL WATER HEATER

A new heat pump water heater takes energy savings to new heights. It reduces electric water-heating energy consumption by up to 66% compared to a standard electric water heater. Which means lower monthly bills.

And it provides the same reliable supply of hot water you're accustomed to. Which means no surprises.

BUY TODAY AND SAVE EVEN MORE

For a limited time, heat pump water heaters are available at big discounts.

Klickitat County PUD Rebate \$300

Tier 2 and 3 heat pump water heater, any tank size.

Go to hotwatersolutionsnw.org/find-an-installer to find qualified installers in your area, or go to a retailer near you to take advantage of this offer.

509-773-7622 | Klickitatpud.com

Klickitat County PUD Rebate Requirements: Must be installed in new and existing single-family homes and manufactured homes only. In existing homes, the new heat pump water heater must replace an electric storage water heater. Also, the primary source of heat must be electric with no connection to natural gas.

*Offer is available through December 31, 2017, or while supplies last.
