- HVAC (air-source heat pump & or mini split system)
- Weatherization (windows, doors, insulation)
- Smart Thermostat
- Heat Pump Water Heater

To qualify, households (at a minimum) must meet the Federal Weatherization Assistance income levels.

HEAR STATE GRANT

Klickitat PUD has been awarded grant funding by the Washington State Department of Commerce to assist low and moderate-income households with home upgrades, including heat pumps, water heaters, and more. With these additional funds, combined with our existing rebate program, we aim to cover most, if not all, of the costs for these approved installations.

KPUD is implementing a pre-approval application process to expedite services once the funds are released. To learn more and start the application process, please contact us.

The Home Electrification and Appliance Rebates Program is supported with funding from Washington's Climate Commitment Act. The CCA supports Washington's climate action efforts by putting cap-and-invest dollars to work reducing climate pollution, creating jobs, and improving public health. Information about the CCA is available at www.climate.wa.gov.

The above information message was provided by the State of Washington and is being transmitted by Klickitat PUD as a state requirement for grant eligibility. This message should not be interpreted as utility support or opposition to any measure relating to the Climate Commitment Act.
